

Get started

Access to the application

You can check the Public DNS in AWS console after launching the instance.

Access to the application via a browser at <http://<Public DNS>:8080/SynapDocViewServer/admin>

Example

Public DNS : [ec2-12-34-567.891.compute-1.amazonaws.com](http://ec2-12-34-567-891.compute-1.amazonaws.com)

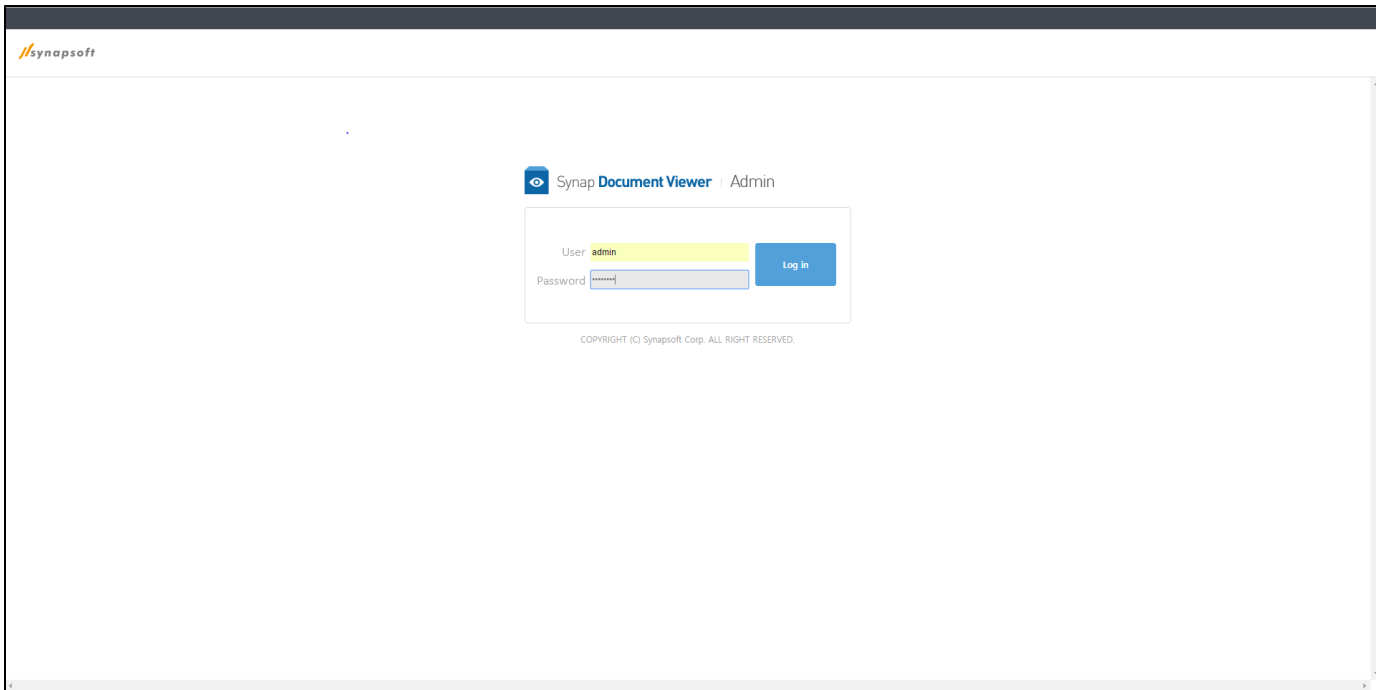

Access URL: <http://ec2-12-34-567-891.compute-1.amazonaws.com:8080/SynapDocViewServer/admin>

Log in to your administration console

Log in to your application with the following credentials;

** username: admin

** password: <the instance id of the instance just created>

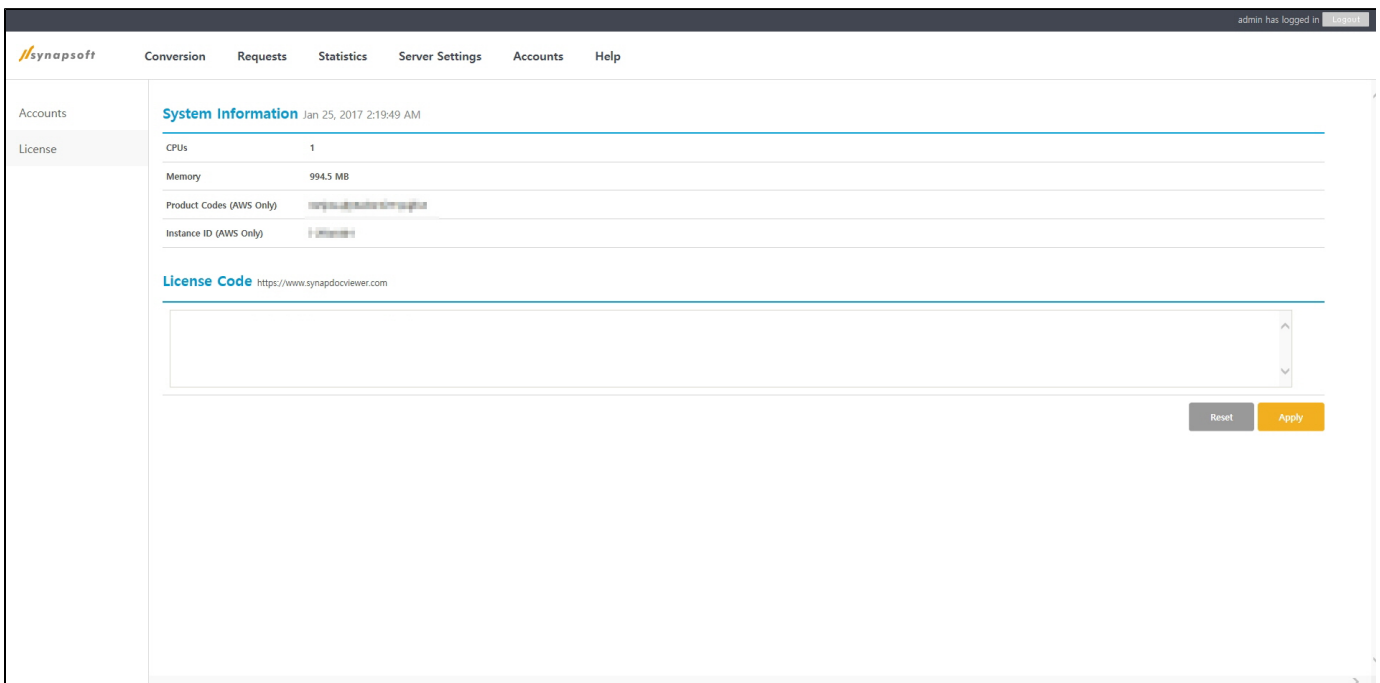

After your first login, you are welcome to change your password.

Request a license for a free 30-day trial or an invoice for purchasing

In the License page, you can check your product codes and an Instance ID.

This information is necessary to request a free 30-day trial or invoice for purchasing.

In this website: www.synapdocviewer.com, you can find a request form for free 30-day trial as shown below.

Request a Free 30-Day Trial

Step 1.
Create instance by using AMI on AWS

Step 2.
Submit a free 30-day Trial request form

Step 3.
Receive license key by email

Step 4.
Apply license key to administration console

Fill out the form ↓

Product Code *

Instance Type *

Instance Model *

Instance ID *

Contact Information

Name * Company *

Address * Suite or Apt. # *

City * State *

Country * Zip *

Business Registration Number *Only one Free Trial License will be issued per company.

Website

Comments

I agree to the terms in [EULA](#) *Mandatory field

Submit the form

Fill out the information including instance ID and submit the form.

Synapsoft will give you a license key within 24 hours via E-mail.

Apply a license key

Return to the Synap Document Viewer administration console> Accounts> License and insert your license key.

The screenshot shows the Synapsoft web interface. At the top right, it indicates 'admin has logged in' with a 'Logout' button. The main navigation bar includes 'Conversion', 'Requests', 'Statistics', 'Server Settings', 'Accounts', and 'Help'. On the left, a sidebar menu has 'Accounts' and 'License' selected. The main content area is titled 'System Information' with a timestamp of 'Jan 25, 2017 2:19:49 AM'. It displays the following system details:

CPU(s)	1
Memory	994.5 MB
Product Codes (AWS Only)	XXXXXXXXXXXXXXXXXXXX
Instance ID (AWS Only)	i-XXXXXXXX

Below this, there is a 'License Code' section with a link to <https://www.synapdocviewer.com>. A text input field contains a license key: 'XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXXXX'. At the bottom right of this section are 'Reset' and 'Apply' buttons.

The Synap Document Viewer will then be activated

If you have any questions or need help getting started, contact us anytime at support@synapdocviewer.com.

We hope you enjoy your free trial of Synap Document Viewer.
